

BEST OF BRITISH

THE PROJECT

Two hundred **U.S. based** actors, writers, directors and producers will be invited to take part in four free-of-charge intensive weekends of talks, workshops and mentoring sessions led by British practitioners.

Each weekend will focus on the very best of British theatre, introducing U.S. practitioners to contemporary cultural practices, and a practical history of performance in the U.K.

Working together over a weekend will also potentially strengthen peer-to-peer connections leading to new creative collaborations.
